### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Claims 5, 10-12, and 19-23 are allowable for the reasons set forth in the previous office action for claims 3-5, 9-12, 14, and 15. The IDS of 10/29/2007 includes JP 2000-121,600 (hereafter "JP '600"), which was utilized by the Japanese Patent Office against the claims of one of the foreign priority application 2004-39566. However, this reference does not anticipate or render obvious any of the new independent claims of the present invention. In particular, although JP '600 is drawn to an abnormality determination based on a resistance of the sensor, it does not disclose nor render obvious where the abnormality is on the basis of current value or voltage value being equal to zero or a value substantially regarded as being zero as required for claims 19 or 22, it does not disclose nor render obvious where the abnormality is on the basis of a current or voltage value is fixed at a boundary value or thereabouts in which the feedback amplifying circuit operates as required by claims 20 or 23, and it does not disclose nor render obvious an operated amount measuring unit that is configured to measure an actually operated amount of either the applied voltage or the sensor current when the change is caused in either the applied voltage or sensor current as required by claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
